MadeInFire purchased Dona's molds a few years ago. They have now announced they are looking for a buyer. They will not be releasing any new products but will continue for the time being to make molds and color. MCS has quite a few old Dona's molds in stock. Don't miss out on getting one of your favorites before they are no longer available.
MCS will not be bringing in any more MadeInFire product on speculation of sales. All molds based on first come first serve. Molds for shipment will be billed to your credit card when pulled. We can't hold orders for later pick-up. 30% off retail on sale molds. Some we have multiples of , others only 1.
